GCSE PHYSICAL EDUCATION (Short Course)

SUMMARY OF ASSESSMENT

Component 1: Introduction to physical education
Written examination: 1 hour
60% of qualification

Learners will be assessed through a range of short and extended questions. The questions will be based on stimuli/sources.

Component 2: The active participant in physical education
Non-exam assessment
40% of qualification

This component is internally assessed and externally moderated.

Learners will be assessed in **two** different activities in the role of performer in **one** individual and **one** team sport.

This linear qualification will be available for assessment in May/June each year. It will be awarded for the first time in summer 2018.

Qualification Accreditation Number: 603/0603/8

GCSE PHYSICAL EDUCATION (Short Course)

1 INTRODUCTION

1.1 Aims and objectives

The WJEC Eduqas GCSE Physical Education (Short Course) specification is broad, coherent and practical, designed to encourage learners to be inspired, motivated and challenged by the subject and enable them to make informed decisions about further learning opportunities and career pathways.

Through studying GCSE Physical Education (Short Course) learners will acquire the knowledge, understanding, skills and values to develop and maintain their performance in physical activities and understand the benefits to health, fitness and well-being. Learners will develop theoretical knowledge and understanding of the factors that underpin physical activity and sport and use this knowledge to improve performance.

Learners will perform in different physical activities. They will develop skills and techniques, select and use tactics, strategies and/or compositional ideas. Learners will develop their ability to analyse and evaluate to improve performance in physical activity and sport. The WJEC Eduqas GCSE Physical Education (Short Course) requires learners to:

- develop theoretical knowledge and understanding of the factors that underpin physical activity and sport and use this knowledge to improve performance
- understand how the physiological state affects performance in physical activity and sport
- perform effectively in different physical activities by developing skills and techniques and selecting and using tactics, strategies and/or compositional ideas
- develop their ability to analyse and evaluate to improve performance in physical activity and sport
- understand the contribution which physical activity and sport make to health, fitness and well-being.

This specification has been designed to allow learners to develop an appreciation of physical education in a wide range of contexts. The specification uses stimuli/sources as part of the assessment. The use of stimuli/sources is designed to integrate theory and practice.

The WJEC Eduqas GCSE Physical Education (Short Course) specification provides clear guidance on the performance skills to be assessed (Appendix C) and on the marking of non-exam assessment (Appendix A).

1.2 Prior learning and progression

There are no previous learning requirements for this specification. Any requirements set for entry to a course based on this specification are at the school/college's discretion.

This specification builds on subject content which is typically taught at key stage 3 and provides a suitable foundation for the study of Physical Education at either AS or A level. In addition, the specification provides a coherent, satisfying and worthwhile course of study for learners who do not progress to further study in this subject.

1.3 Equality and fair access

This specification may be followed by any learner, irrespective of gender, ethnic, religious or cultural background. It has been designed to avoid, where possible, features that could, without justification, make it more difficult for a learner to achieve because they have a particular protected characteristic.

The protected characteristics under the Equality Act 2010 are age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The specification has been discussed with groups who represent the interests of a diverse range of learners, and the specification will be kept under review.

Reasonable adjustments are made for certain learners in order to enable them to access the assessments (e.g. learners are allowed access to a Sign Language Interpreter, using British Sign Language). Information on reasonable adjustments is found in the following document from the Joint Council for Qualifications (JCQ): *Access Arrangements, Reasonable Adjustments and Special Consideration: General and Vocational Qualifications*.

This document is available on the JCQ website (www.jcq.org.uk). As a consequence of provision for reasonable adjustments, very few learners will have a complete barrier to any part of the assessment.

2 SUBJECT CONTENT

The subject content focuses on three key areas:

1. Health, training and exercise
2. Exercise physiology
3. Movement analysis

All of the subject content can be assessed in Component 1.

Component 1 requires learners to demonstrate an understanding of how both qualitative and quantitative data are collected. Learners will also be required to analyse and evaluate data.

2.1 Component 1

Introduction to physical education

Written examination: 1 hour

60% of qualification

60 marks

Learners will be assessed through a range of short and extended answers. The questions will be based on stimuli/sources.

The content and amplification are set out in two columns on the following pages. There is no hierarchy implied by the order in which the content is presented, nor should the length of the various sections be taken to imply any view of their relative importance.

Calculators may be used in the written examination for Component 1. Learners are responsible for making sure that their calculators meet the relevant regulations for use in written examinations: information is found in the JCQ publications *Instructions for conducting examinations* and *Information for candidates for written examinations*.

1. Health, training and exercise

Content	Amplification
Health, fitness and well-being	Definition and knowledge of the relationship between health, fitness and well-being.
The contribution physical activity makes to health and fitness	The importance of exercise. Benefits of an active, healthy lifestyle. Lifestyle choices and adherence, links to motivation. The health benefits from exercising including physical, social and mental well-being benefits. The relationship between physical, social and mental health.
Consequences of a sedentary lifestyle	The risks of not exercising to include stress, hypertension, obesity, atherosclerosis, poor self-esteem, poor body image and self-confidence.
Diet and nutrition	<p>Energy balance equation; positive, negative, balanced. The functions of nutrients; protein for tissue growth/repair, carbohydrate for energy, fats for energy/insulation, minerals for bone growth, water for hydration. The role of nutrients in different intensities of exercise to include carbohydrates, proteins, fats, vitamins and hydration. The dangers of under and over hydrating.</p> <p>The importance of nutrition for overall health and its roles in different types of physical activity.</p>
Components of fitness	<p>Links of components of fitness to specific sports/activities. Development of fitness for lifestyle and/or performance.</p> <p>Cardiovascular endurance, muscular endurance, muscular strength, flexibility, body composition, agility, speed, power, co-ordination, balance, reaction time.</p>

Content	Amplification
<p>Methods of training</p> <p>Training zones</p>	<p>Different methods of training including continuous, interval, including fartlek, circuit, weight training and plyometrics. Flexibility training including active, passive, dynamic stretching.</p> <p>The development of correct techniques.</p> <p>The suitability of various methods of training depending upon the needs of the individual and the activity.</p> <p>The development and improvement of both health and performance through appropriate methods of training.</p> <p>Training zones and the link to heart rate, exercise, fitness, energy systems and health.</p> <p>Aerobic training zone to develop cardiovascular system.</p> <p>Anaerobic training zone to develop lactic and acid system.</p> <p>Calculation of maximum heart rate and percentages for different training zones.</p> <p>Intensities and durations of exercising depending upon individual needs.</p> <p>Links to aerobic and anaerobic exercise in key area 2. <i>Exercise physiology.</i></p>
<p>Principles of training and exercise</p>	<p>Intensities and durations of exercising depending upon individual needs.</p> <p>Specificity, progression, overload (intensity, frequency, duration), variance.</p> <p>Learners will need to apply the principles of training to improving health for sedentary individuals and fitness for sportspersons.</p>
<p>Data analysis</p>	<p>The collection, analysis and presentation of appropriate data for any of the content in health, training and exercise.</p>

2. Exercise physiology

Content	Amplification
Muscular-skeletal system	<p>The structure and function of the muscular-skeletal system.</p> <p>The structure of the skeletal system to include ball and socket, hinge and pivot joints (synovial joints); major bones including radius, ulna, humerus, femur, tibia, fibula. Flat bones such as scapula, cranium and ribs for protection.</p> <p>Functions of the skeletal system: movement, support, protection and production of blood cells. Types of movement at different joints including flexion, extension, adduction, abduction, circumduction, rotation.</p> <p>The structure of the muscular system – types of muscles: smooth, cardiac, skeletal, involuntary, and voluntary. Names of major muscles such as biceps, triceps, deltoid, pectorals, latissimus dorsi, gluteals, quadriceps, hamstrings, gastrocnemius. Links of major muscles to types of movement at different joints including flexion, extension, adduction, abduction, circumduction, rotation. Links of major muscles to types of muscle contractions (concentric, eccentric and isometric).</p> <p>Muscle fibre types: slow/fast type I, type II. Characteristics and their function within a variety of sports and aerobic and anaerobic exercise. The function of ligaments and tendons.</p>
Cardio-respiratory and vascular system	<p>The structure and function of the cardio-respiratory and vascular systems.</p> <p>Structure of the cardio system to include labelling of the heart: atria, ventricles, pulmonary and systemic circulatory systems.</p> <p>Functions to include transportation of nutrients, oxygen and waste products, thermoregulation, vasodilation, vasoconstriction.</p> <p>Cardiac values at rest and during exercise; cardiac output, heart rate, stroke volume, blood pressure: systolic, diastolic, values at rest and exercise.</p> <p>Structure of the respiratory system to include trachea, bronchus, bronchioles, alveoli, diaphragm.</p> <p>Functions to include gaseous exchange, oxygenation of blood.</p> <p>Movement: Lung volumes inc; vital capacity, minute ventilation, breathing frequency (rate), tidal volume, values at rest and exercise.</p>

3. Movement analysis

Content	Amplification
Muscle contractions	Isotonic contractions including eccentric, concentric – isometric contractions.
	Antagonistic muscle action – agonists (prime movers), antagonists.
Lever system	The classification of levers, with focus on the joints and leverage systems at the shoulder, elbow, knee and hip. The mechanical advantages of different classes of levers. Fulcrum, load and effort.
Planes and axes of movement	<p>Sagittal, and frontal and transverse planes - flexion, extension, adduction and abduction.</p> <p>Axes of movement: sagittal, frontal and vertical and the movements that occur through these axes.</p> <p>Movements at joints during the actions of running, throwing, jumping and kicking.</p> <p>Links should be made between planes and axes of movement and with the muscular-skeletal system in key area 2. <i>Exercise physiology</i>.</p>
Data analysis	The collection, analysis and presentation of appropriate data for any of the content in movement analysis.

2.2 Component 2

The active participant in physical education

Non-exam assessment

40% of qualification

40 marks

Learners will be assessed in **two** different activities in the role of player/performer in **one** individual and **one** team sport from the lists of activities in Appendix B. The list of activities is a full and complete list of all available activities as stipulated by the Department for Education.

The assessment grids for the practical performance can be found in Appendix A.

The generic performance skills and amplification for the practical activities are set out in the columns below.

Practical performance skills

Performance skills	Amplification
<p>In both individual and team activities, learners should demonstrate:</p> <p>Skills and techniques</p> <p>Decision making skills</p> <p>Problem solving solutions</p> <p>Appropriate physical characteristics</p> <p>Psychological control</p> <p>Adherence to health and safety guidelines</p>	<p>Learners should be able to:</p> <p>Apply the appropriate skills and techniques to the activity in demanding situations such as full games.</p> <p>Apply appropriate decision making and strategies in demanding situations such as full games. In creative activities such as dance and gymnastics compositional ideas should be applied.</p> <p>Solve problems in both predetermined and spontaneous ways whilst under pressure in physical activity and sport.</p> <p>Apply physical attributes appropriate to the chosen activity.</p> <p>Show emotional control during performance in demanding situations.</p> <p>Apply appropriate risk management strategies to the chosen activity.</p>
<p>In team activities, learners should also demonstrate:</p> <p>Their participation as an active team member</p>	<p>Learners should be able to:</p> <p>Apply team strategies. Learners should take into account the strengths and weaknesses of fellow team members.</p> <p>Show awareness of the actions of other performers and respond appropriately whilst also showing their individual role in achieving the collective aims.</p> <p>Communicate effectively with other performers.</p>

3 ASSESSMENT

3.1 Assessment objectives and weightings

Below are the assessment objectives for this specification. Learners must:

AO1

Demonstrate knowledge and understanding of the factors that underpin performance and involvement in physical activity and sport

AO2

Apply knowledge and understanding of the factors that underpin performance and involvement in physical activity and sport

AO3

Analyse and evaluate the factors that underpin performance and involvement in physical activity and sport

AO4

Demonstrate and apply relevant skills and techniques in physical activity and sport

The table below shows the weighting of each assessment objective for each component and for the qualification as a whole.

	AO1	AO2	AO3	AO4	Total
Component 1	25%	20%	15%	-	60%
Component 2	-	-	-	40%	40%
Overall weighting	25%	20%	15%	40%	100%

3.2 Arrangements for non-exam assessment

Component 2 assesses assessment objective 4 in its entirety; it will be marked out of 40 and is worth 40% of the qualification.

Summary of Component 2

Assessment	Marks	Weighting	Assessment objective
Practical performance in one individual activity	20	20%	AO4
Practical performance in one team activity	20	20%	AO4

1. Assessment of practical performance

Candidates must be assessed in activities approved by the Department for Education, see Appendix B.

Candidates can be assessed at intervals throughout the course. The final mark submitted should be a true reflection of the candidate's performance.

For the team sports/activities candidates should: demonstrate the application of skills/techniques/strategies appropriate to the position/activity in competitive situations.

For individual sports/activities candidates should: demonstrate the application of skills/techniques/strategies appropriate to the activity in competitive situations.

The performances must be internally assessed by the teacher using the assessment grids in Appendix A. The performances are externally moderated by a visiting moderator. Candidates can offer off-site activities for assessment.

Off-site activities are those that do not take place at the school/college campus and where it would be difficult to moderate "live" on moderation day. Appropriate DVD/digital evidence must be available for the performance of all off-site activities.

All activities must be assessed by teachers and mark sheets signed by teachers. This applies to both on-site and off-site activities.

Please note, to ensure that centres can review the outcome of moderation, and have access to the enquiries about results service, each centre must complete an audio-visual recording of all the performances seen on moderation day.

Following moderation, the audio-visual recording should be sent to WJEC within one week of the moderation visit. WJEC will keep it for sufficient time to allow for the completion of relevant enquiries about results and appeals.

Reasonable adjustments

Any specific access arrangements must be agreed before assessment takes place. Access arrangements are designed to enable learners with special educational needs, disabilities or temporary injuries to be assessed.

WJEC will make reasonable adjustments where a disabled candidate would otherwise be at a substantial disadvantage in comparison to someone who is not disabled. Access arrangements will allow reasonable adjustments to take place. However while one of the main concerns of suitable access arrangements is the needs of the learner, the other is the necessity of ensuring that the integrity of the assessment is not compromised.

Centres who wish to apply for reasonable adjustments must do so via *Access arrangements online* in the first instance. In the case of injuries, WJEC should be contacted as soon as possible. Learners will then know at the earliest possible point what access arrangements are in place.

Any reasonable adjustment that has been authorised will apply to both the internal assessment by teachers and to moderation day. The visiting moderator will be informed of the adjustments ahead of the visit and will comply with any arrangements that are in place.

Please note that an adjustment will only be made if it is deemed to be *reasonable* e.g. if it does not affect the integrity of the assessment, does not involve unreasonable costs to WJEC or does not impact unreasonably on other learners.

Full details can be found in JCQs regulations and guidance on Access Arrangements and Reasonable Adjustments <http://www.jcq.org.uk/exams-office/access-arrangements-and-special-consideration/regulations-and-guidance> which is updated annually.

Recording practical performances

The following guidance applies to all instances when recorded evidence is required, this includes evidence for off-site activities filmed prior to moderation day and all activities recorded during the moderator visit.

To ensure that there is appropriate evidence for assessment it is essential that the following procedures should all be adhered to:

- All candidates should be introduced at the start of each performance providing their name, candidate number and, if appropriate, how they will be identified during the performance e.g. blue 4 in a team game
- The evidence should be produced in an easy to access format such as DVD so that the moderator can easily view the recording and WJEC can use for moderation/standardising purposes
- The recorder should be familiar with the assessment criteria to ensure that all aspects of the assessment requirements are recorded. This may require using wide angled shots as well as close ups depending on the activity being filmed
- After assessment check the recordings, back them up
- Save the recording clearly identifying both on the cover and on the DVD the centre number and qualification

Recording team games

For a whole game the camera should follow the action although, in discussion with moderators, it might be appropriate to follow individuals for some of the period of play. Although WJEC requires assessment in a full game situation the difficulties of filming sufficient evidence is recognised. Therefore it is recommended that performances in small sided/conditioned situations are also filmed to supplement the evidence from the full game.

Recording in public pools or facilities

If public swimming pools or facilities are to be used, a centre should approach the management of the pool or facility to discuss arrangements. If filming in a public pool or facility does take place the following procedures should be followed:

- Adhere strictly to the facilities guidelines/policy on recording
- Permission must be obtained from the parents/guardians of the participants
- Other users should be informed and consent to the recording (this may be done as part of the facilities own guidelines/policies)

It is the responsibility of the centre to provide evidence for every candidate; either live at moderation or a recorded off-site activity. Therefore if the difficulties of recording at public pools or facilities prove to be impossible to overcome, candidates should **not** be entered for assessment in that activity.

Authentication

It is important that all non-exam assessments are rigorously monitored by centres to ensure that all candidates' performances are their own.

- All candidates are required to sign an authentication statement endorsing the practical performance as their own
- Centres must countersign that they have taken all reasonable steps to validate this
- An authentic teacher signature must be used; counter signed by a senior member of staff
- Documentation must be completed for all candidates' performances, not just for those selected for the sample to be seen by the moderator
- All documentation will be available on the physical education homepage on the WJEC website.

Moderation Process

- WJEC provides an annual administrative handbook for centres, outlining how assessments should be undertaken in centres
- Moderation will take place between March and May of the year of examination.
- Moderators will contact centres before the end of December of the examination year to arrange a date for the moderation visit.
- WJEC will then confirm, in writing, the date of the moderation.
- Prior to the visit, centres will have completed all mark sheets, which will be available on the website, and forwarded them to WJEC by a date to be confirmed in early February.
- Following the receipt of mark sheets WJEC will contact centres to confirm the visit arrangements (date, and venue(s), activities to be moderated, candidates to attend moderation) and to request a sample of filmed evidence of off-site activities (if appropriate).
- Centres will confirm the timetable for moderation visits.
- Filmed evidence of off-site activities must be sent to WJEC at least one week prior to the visit.
- All candidates requested by WJEC must be seen performing on the day
- Candidates must be clearly identified by number.

Absence from moderation

It is a requirement that all candidates selected as part of the sample will attend moderation. However the nature of physical education and sport is that there will occasionally be injuries which mean that candidates will not be able to play an active part in the moderation day.

In the case of injuries sustained during the course which makes participation at moderation impossible, the following procedures must be followed:

- Centres must inform WJEC about the nature and extent of the injury as soon as possible
- Centres must confirm that there is a genuine reason for the proposed non – attendance of the candidate and retain evidence within the centre
- WJEC will, in most instances, request that another candidate with similar marks attends moderation
- If possible the injured candidate should attend moderation day

Centres must ensure that all necessary equipment and facilities will be available on the day of moderation. The moderator should be made aware of any activity which is to be moderated at an off-site venue.

All centres will receive a report on the moderation which will be available electronically on GCSE results day.

4 TECHNICAL INFORMATION

4.1 Making entries

This is a linear qualification in which all assessments must be taken at the end of the course. Assessment opportunities will be available in the summer series each year, until the end of the life of this specification. Summer 2018 will be the first assessment opportunity.

A qualification may be taken more than once. Candidates must resit all examination components in the same series.

Marks for NEA may be carried forward for the life of the specification. If a candidate resits an NEA component (rather than carrying forward the previous NEA mark), it is the new mark that will count towards the overall grade, even if it is lower than a previous attempt.

Where a candidate has certificated on two or more previous occasions, the most recent NEA mark is carried forward, regardless of whether that mark is higher or lower (unless that mark is absent).

The entry code appears below.

WJEC Eduqas GCSE Physical Education (Short Course): C555QT

The current edition of our *Entry Procedures and Coding Information* gives up-to-date entry procedures.

4.2 Grading, awarding and reporting

GCSE qualifications are reported on a nine point scale from 1 to 9, where 9 is the highest grade. Neither results not attaining the minimum standard for the award will be reported as U (unclassified).

APPENDIX A

Component 2 assessment grids

Component 2 assesses AO4 in its entirety; it will be marked out of 40 and is worth 40% of the qualification.

Guidance on using assessment grids for non-exam assessment

Banded assessment grids are divided so that each band within a section has a relevant descriptor. The descriptor for the band provides a description of the performance level for that band. Each band contains marks.

Before marking, teachers should first view the performance to pick out the evidence that is being assessed. The mark scheme can then be applied.

Beginning at the lowest band, teachers should look at the appropriate section of the learner's performance and check whether it matches the descriptor for that section's mark band. Teachers should look at the descriptor for that band and see if it matches the qualities shown in the learner's performance for that section. If the descriptor at the lowest band is satisfied, teachers should move up to the next band and repeat this process for each band until the descriptor matches the performance.

If the performance cover different aspects of different bands within the mark scheme, a 'best fit' approach should be adopted to decide on the band and then the learner's performance/work should be used to decide on the mark within the band. For instance if work is mainly in band 2 but with a limited amount of band 3 content, it would be placed in band 2, but the mark awarded would be close to the top of band 2 as a result of the band 3 content. Teachers should not seek to mark learners down as a result of small errors made during practical performance.

Once the band has been decided, teachers can then assign a mark. Teachers are reminded of the need to revisit the performance as they apply the mark scheme in order to confirm that the band and the mark allocated is appropriate to the performance.

Where performance is not credit worthy, that is, contains nothing of any significance, no marks should be awarded.

Practical Performance

Learners will be assessed performing in **two** different activities, **one** individual and **one** team sport from the approved list of activities in Appendix B. The following grids should be used in conjunction with the performance skills for each activity in Appendix C.

In team activities learners should demonstrate the application of skills/techniques/strategies appropriate to the position/activity in competitive situations.

Mark Range	Assessment Criteria: Team sports/activities
Band 4	<p style="text-align: center;">16-20 marks</p> <p>Apply appropriate skills and techniques for the position/activity. Consistency, precision and fluency are evident.</p> <p>Apply individual role consistently and effectively and make evident a significant contribution to achieving the collective outcome.</p> <p>Excellent implementation of appropriate team strategies and tactics and/or compositional ideas. Show awareness of, and responding to, the actions of other players.</p> <p>Make excellent decisions about adapting performance whilst under pressure.</p> <p>Utilise all appropriate physical characteristics for the activity.</p> <p>Excellent display of psychological control in pressure situations.</p> <p>Excellent implementation of appropriate risk management strategies and application of rules/conventions.</p> <p>Communicate effectively with other players to benefit the team performance.</p>
Band 3	<p style="text-align: center;">11-15 marks</p> <p>Apply appropriate skills and techniques for the position/activity. Precision and fluency are evident but lack consistency.</p> <p>Apply individual role, make evident a contribution to achieving the collective outcome.</p> <p>Good implementation of appropriate team strategies and tactics and/or compositional ideas. Show awareness of, and responding to, the actions of other players.</p> <p>Make good decisions about adapting performance whilst under pressure.</p> <p>Possess appropriate physical characteristics for the activity. Implementation of the characteristics are evident.</p> <p>Good display of psychological control in pressure situations though there may be occasional lapses.</p> <p>Good implementation of risk management strategies and application of rules/conventions.</p> <p>Communicate with other players to largely benefit the team performance.</p>
Band 2	<p style="text-align: center;">6-10 marks</p> <p>Apply skills and techniques for the position/activity. Precision, fluency and consistency are lacking.</p> <p>Individual role makes limited contribution to achieving the collective outcome.</p> <p>Limited implementation of appropriate team strategies and tactics and/or compositional ideas. Little awareness of, and responding to, the actions of other players.</p> <p>Limited decision making evident about adapting performance whilst under pressure.</p> <p>Limited physical characteristics for the activity evident and little application of these characteristics.</p> <p>Limited display of psychological control in pressure situations. Limited implementation of risk management strategies and application of rules/conventions.</p> <p>Limited communication with other players, little benefit to the team performance.</p>
Band 1	<p style="text-align: center;">1-5 marks</p> <p>Basic application of skills and techniques for the position/activity. Precision, fluency and consistency are lacking.</p> <p>Individual role makes little or no contribution to achieving the collective outcome.</p> <p>Basic application of team strategies and tactics and/or compositional ideas, with no awareness of, and responding to the actions of other players.</p> <p>Basic decision making evident about adapting performance whilst under pressure.</p> <p>Basic physical characteristics for the activity evident and little application of these characteristics.</p> <p>Basic display of psychological control. Basic implementation of risk management strategies and application of rules/conventions.</p> <p>Basic communication with other players, basic benefit to the team performance.</p>
	<p style="text-align: center;">0 marks</p> <p>Performance is not worthy of a mark</p>

In individual activities learners should demonstrate the application of skills / techniques / strategies appropriate to the activity in competitive situations.

Mark Range	Assessment Criteria: Individual sports/activities
Band 4	<p style="text-align: center;">16-20 marks</p> <p>Apply appropriate skills and techniques for the activity. Consistency, precision and fluency are evident. Excellent implementation of appropriate strategies and tactics and/or compositional ideas. Make excellent decisions about adapting performance whilst under pressure. Utilise all appropriate physical characteristics for the activity. Excellent display of psychological control in pressure situations Excellent implementation of appropriate risk management strategies and application of rules/conventions.</p>
Band 3	<p style="text-align: center;">11-15 marks</p> <p>Apply appropriate skills and techniques for the activity. Precision and fluency are evident but lack consistency. Good implementation of appropriate strategies and tactics and/or compositional ideas. Make good decisions about adapting performance whilst under pressure. Possess appropriate physical characteristics for the activity, implementation of the characteristics are evident. Good display of psychological control in pressure situations though there may be occasional lapses. Good implementation of risk management strategies and application of rules/conventions.</p>
Band 2	<p style="text-align: center;">6-10 marks</p> <p>Apply skills and techniques for the activity. Limited precision, fluency and consistency. Limited implementation of appropriate strategies and tactics and/or compositional ideas. Limited decision making evident about adapting performance whilst under pressure. Limited physical characteristics for the activity are evident and limited implementation of these characteristics. Limited display of psychological control in pressure situations. Limited implementation of risk management strategies and application of rules/conventions.</p>
Band 1	<p style="text-align: center;">1-5 marks</p> <p>Basic application of skills and techniques for the activity. Precision, fluency and consistency are lacking. Basic implementation of appropriate strategies and tactics and/or compositional ideas. Basic decision making evident about adapting performance whilst under pressure. Basic physical characteristics for activity evident and little or no implementation of these characteristics. Basic display of psychological control in pressure situations. Basic implementation or risk management strategies and application of rules/conventions.</p>
	<p style="text-align: center;">0 marks</p> <p>Performance is not worthy of a mark</p>

APPENDIX B

GCSE Physical Education (Short Course) activity list

The list of activities below is a full and complete list of all available activities as stipulated by the Department for Education. Learners must be assessed in **two** different activities in the role of player/performer, **one** of these must be a team activity and **one** must be in an individual activity.

Candidates can only be assessed **once** in any sport or activity, e.g. they may not be assessed in doubles tennis and then singles tennis.

All activities must have a competitive or formal condition in which learners can be assessed.

Team Activity	Comments
Acrobatic gymnastics	[Awarded from 2021 onwards] Cannot be assessed with gymnastics
Association football	Cannot be five-a-side. Cannot be assessed with futsal
Badminton	Cannot be assessed with singles
Basketball	Cannot be street basketball
Camogie	Cannot be assessed with hurling
Cricket	
Dance	This can only be used for one activity
Figure skating*	[Awarded from 2021 onwards] This can only be used for one activity. Cannot be assessed with dance
Futsal	[Awarded from 2021 onwards] Cannot be assessed with football
Gaelic football	
Handball	
Hockey	Must be field hockey.
Hurling	Cannot be assessed with camogie
Ice hockey	[Awarded from 2021 onwards] Cannot be assessed with inline roller hockey
Inline roller hockey	[Awarded from 2021 onwards] Cannot be assessed with ice hockey
Lacrosse	
Netball	
Rowing	Cannot be assessed with sculling, canoeing or kayaking
Rugby league	Cannot be assessed with rugby union (sevens or fifteen a side). Cannot be tag rugby
Rugby union	Can be assessed as sevens or fifteen a side. Cannot be assessed with rugby league. Cannot be tag rugby. This can only be used for one activity
Sailing	[Awarded from 2021 onwards] Royal Yachting Association recognised sailing boat classes only. The list can be found online at: https://www.rya.org.uk/racing/youth-junior/info/Pages/recognised-classes.aspx . This can only be used for one activity. Students must perform as helmsman

Disability activities

Accessibility and inclusion for students has been addressed in a number of ways.

Specialist activities

A number of specialist activities are included in the proposed activity list to be used by all awarding organisations. The specialist activities included are based on those which have been included in current specifications following requests from specialist centres over the last 6 years. It has been agreed with DfE and Ofqual that the awarding organisations can jointly consider additions to the permitted activities for reasons of accessibility and inclusion on a periodic basis, once specifications are available for live assessment. The use of these activities for assessment is dependent upon the student(s) in question meeting the classification requirements for the activities, as stipulated by the relevant governing body.

Adaptations and reasonable adjustments to activities

Any of the listed NEA activities may be adapted to suit different needs, but the way in which they are adapted depends on the individual need or disability. It is important that any adaptation or adjustment does not compromise the rigour and validity of the assessment; often it is the context of the performance which changes, such as the use of adapted equipment or rules and regulations. In some cases, a particular move or technique required in an activity can be substituted for a suitable alternative, as appropriate.

APPENDIX C
