Introduction

In August 2021, the Department for Education (DfE) and Ofqual published the outcomes of their joint consultation on the arrangements for the assessment and awarding of Vocational and Technical Qualifications and Other General Qualifications in 2021/22. Details of the [consultations decisions](#) along with a copy of the consultation and analysis of responses is available on the Ofqual website.

We have subsequently reviewed our adaptations to the assessment of our qualifications in line with the consultation decisions.

This document provides details of the adaptations to the assessment of our vocational and other general qualifications in 2021/22 including our Entry Level Certificates, Level 1/2 Vocational Awards and Level 3 Applied Certificates and Diplomas. **It replaces any previously published information on adaptations to assessment for the 2020/21 and 2021/22 academic years and overrides published information in the specification and sample assessment materials.**

Adaptations have been designed to assist with mitigating the impact on teaching, learning or assessments caused by the coronavirus (COVID-19) pandemic. We are aware that the impact of the disruption varies between centres, depending on the qualifications that they offer and their approaches to teaching and learning, with some centres and subjects more affected than others.

The adaptations published in this document are for the academic year 2021/22 only and it should not be assumed that adaptations to assessments will continue in 2022/23.

We continue to work collaboratively with DfE, Ofqual and other awarding organisations to monitor the impact of the Covid-19 pandemic and to identify and consider any contingency arrangements which may be necessary in the event of any potential worsening public health situation that results in significant disruption to a learner's ability to take their assessments.

Should you have any questions or would like further support with the delivery of your qualifications, please contact us, we will be very happy to support you.

Clarification of how Unit CAGs and Unit TAGs will contribute the award of Vocational Award qualifications in 2022

We have collected Unit Teacher Assessed Grades (Unit TAGs) for learners who were part-way through a Level 1/2 Vocational Award qualification in Summer 2021. We also awarded Unit Centre Assessed Grades (Unit CAGs) in 2020 to learners who were part-way through a Level 1/2 Vocational Award in Summer 2020.

Unit grades awarded to learners based on a Unit CAG or Unit TAG will be combined with unit grades awarded for any other assessments completed as normal to award Vocational Award qualifications.

For the avoidance of doubt, this means that unit grades awarded through the Unit CAG or Unit TAG process **will** contribute to the award of the overall qualification.

Clarification of how Unit TAGs will contribute to the award of Applied Diploma qualifications in 2022

We have collected Unit Teacher Assessed Grades (Unit TAGs) for learners who were part-way through a Level 3 Applied Diploma qualification in Summer 2021.

Unit TAGs have been allocated a uniform mark (UMS); these UMS will be combined with UMS from any other assessments completed as normal to award the Applied Diploma qualification.

For the avoidance of doubt, this means that UMS awarded through the Unit TAG process **will** contribute to the award of the overall qualification in 2022.

No UMS have been issued for the Qualification TAGs awarded to Applied Certificate learners in 2020 and 2021 and therefore Qualification TAGs **will not contribute** to the award of the overall qualification in 2022.

Entry Level Certificate in English

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Adaptations to assessment in 2021/2022

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

Assessment is therefore available in January and Summer 2022.

Unit 1 External Examination (25%)	There are no changes to the assessment of this unit.
Unit 2: End of unit tests (60%)	There are no changes to the assessment of this unit. Assessment has been designed to give centres flexibility regarding their delivery model and timetabling of assessments. Where a candidate or group of candidates is unable to sit an assessment, the centre can reschedule the assessment for a later date.
Unit 3: Practical Assessment (15%)	Candidates will not be required to complete Task 1: Presenting a point of view (both the group discussion and individual presentation). Assessment has been designed to give centres flexibility regarding their delivery model and timetabling of assessments. Where a candidate or group of candidates is unable to sit an assessment, the centre can reschedule the assessment for a later date.

Entry Level Certificate in Mathematics – Numeracy

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Level 1/2 Vocational Award in Constructing the Built Environment (2018)

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a Unit TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

<p>Unit 2: Practical Construction Skills</p> <p>Centre marked controlled assessment (50%)</p>	<p>The number of skills candidates are required to demonstrate has been reduced from three to two.</p> <p>Candidates will not be assessed on their interpretation of technical sources of information. (AC1.1)</p> <p>The time allowance for this assessment has been reduced from 14 hours to 9.5 hours.</p> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>External moderation is therefore available in January and Summer 2022.</p>

	<p>Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.</p>
<p>Unit 3: Planning Construction Projects</p> <p>External examination (25%)</p>	<p>There are no changes to this unit.</p> <p>An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.</p> <p>This assessment is therefore available in January and Summer 2022.</p>
<p>The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.</p> <p>However, disruption and centre closures in 2020/21 means that candidates partway through their qualification may not have had access to specialist workspaces and equipment in centres to develop and refine their practical skills.</p> <p>The adaptations to Unit 2 should assist centres to mitigate this disruption by reducing the amount of time that candidates need to spend practising and refining their skills ahead of assessment. The reduction in assessment in the number of skills needing to be demonstrated during assessment has also led to a reduced assessment time of 9.5 hours, freeing up additional time for teaching and learning.</p>	

Level 1/2 Vocational Award and Certificate in Creative and Media

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Adaptations to assessment in 2021/2022

- Candidates may choose to sit an assessment for which they have previously been awarded a Unit TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

Unit 1- Creating a proposal in response to a brief

External examination (25%)

There are no changes to this unit. However, the Unit 1 brief will be released electronically (for download from the secure website) in October rather than December.

This external assessment is available in March 2022.

Unit 2 – Creating an Outcome in response to a Brief

Controlled Assessment (25%)

Centres set the context for the task and can adapt it for assessment in Summer 2022 by setting a smaller/shorter (in duration) or simpler product than normal. For example:

- in Music this could be a shorter composition or performance
- in Design and Technology options (2D/3D/textiles etc), this could be a smaller or simpler item.

The assessment criteria remain unchanged and candidates will not be penalised for producing a shorter/simpler product than previous cohorts.

Unit 3 – Skills development units

Controlled assessment (50%)

Centres set the context for the task and can adapt it for assessment in Summer 2022 by setting a smaller task.

The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.

However, disruption and centre closures in 2020/21 means that candidates partway through their qualification may not have had access to specialist workspaces and equipment in centres to develop and refine their practical skills.

Releasing the Unit 1 brief earlier will allow centres greater flexibility to timetable the research activity. Centres can choose to split the time so that some initial research activity is undertaken at times when practical activities may be limited, and some hours are spent on this shortly before the exam in March. Many centres use the Unit 1 brief as a stimulus for Unit 2, so releasing this early should also help centres in planning their delivery.

Level 1/2 Vocational Award in Designing the Built Environment

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Adaptations to unit assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a Unit TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

Unit 1: Planning Potential of Construction Projects

Externally Marked Controlled Assessment 25%

There are no changes to the assessment of this unit.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

This assessment is therefore available in January and May 2022.

The January 2022 assessment will be available from 4 January on the WJEC secure website and should be completed by the candidates within 3 weeks of being opened by the centre. The assessment may be taken in time blocks determined by the centre taking into account the submission to the examiner no later than 1 February.

The May 2022 assessment will be available from 1 May on the WJEC secure website and should be completed by the candidates within 3 weeks of being opened by the centre. The assessment may be taken in time blocks determined by the centre taking into account the submission to the examiner no later than 28 May.

Unit 2: Drawing Construction Plans

The assessment for 2021 will be streamlined so that candidates do not need to identify information requirements for:

Level 1/2 Vocational Award in Event Operations

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.

<p>The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.</p> <p>As elements of event planning are assessed in Unit 2, Task 1 and Unit 3, Task 3, we have streamlined the assessment for 2022 by allowing candidates to complete one of these tasks. The planning task in Unit 2 is a group task which centres may find difficult to facilitate and therefore the planning task in Unit 3 may be more manageable for centres.</p> <p>Where candidates do not complete the Unit 2, Task 1, teachers will need to identify suitable events for candidates to participate in and assign roles to enable them to complete the remaining tasks. Centres have the flexibility to adapt the assessment brief for Unit 2 so that candidates can run smaller events, outside events or online events.</p> <p>Learners should have the opportunity to plan, run and evaluate a minimum of one event before engaging with the Unit 3 summative assessment. This is a reduction from three events as published in the specification; this adaptation will free up additional teaching and learning time to focus on other areas of content.</p>	

Level 1/2 Vocational Award in Global Business Communication

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Level 1/2 Vocational Award in Hospitality and Catering

There are no changes to taught content and teachers are expected to teach all content required by the Specification.

Adaptations to assessment in 2021/2022

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a Unit TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

Unit 1: The Hospitality and Catering Industry

Externally assessed examination 40%

There are no changes to the assessment of this unit.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

This assessment is therefore available in January and Summer 2022.

Unit 2: Hospitality and Catering in Action

Controlled Assessment 60%

Candidates must still plan two dishes but will only be required to prepare **one** dish in line with the controls outlined in the brief.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

External moderation is therefore available in January and Summer 2022.

Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.

The availability of Unit TAGs for eligible learners will help mitigate disruption to teaching and learning experienced in 2021/22.

However, disruption and centre closures in 2020/21 means that candidates partway through their qualification may not have had access to specialist workspaces and equipment in centres to develop and refine their practical skills.

The adaptations made to Unit 2 to streamline the number of dishes being assessed should assist centres to mitigate disruption to teaching and learning by reducing the amount of time that candidates need to spend practising and refining their skills ahead of assessment.

The need for a physical interview will be removed from Task 3. Instead candidates may submit the evidence they have produced in preparation for the interview and the teacher can use this to complete the observation record.

An additional assessment opportunity has been made available in January 2022 for candidates ready for assessment, including candidates who have been awarded a Unit TAG for Summer 2021 and who want an opportunity to sit the assessment.

External moderation is therefore available in January and Summer 2022.

Centres are also reminded that controlled assessment can be timetabled over as many sessions and weeks as is necessary within the time allowed.

- Candidates who were part-way through their qualification in Summer 2021 should have been entered for a Unit Teacher Assessed Grades (Unit TAGs) for the units they would have completed in Summer 2021, subject to sufficient evidence being available to allow the centre to determine a grade.
- Unit Teacher Assessed Grades (Unit TAGs) awarded for Summer 2021 will contribute to the overall qualification grade in 2021/22 and beyond. **Candidates who are not awarded unit TAGs for a Unit in summer 2021 will need to sit the assessments in 2021/22. For the avoidance of doubt, this means that candidates who are progressing from a Certificate to a Diploma qualification in 2021/22 (mid-flight learners) will need unit TAGs for the Certificate units or will need to sit the Certificate unit assessments in 2021/22.**
- Candidates may choose to sit an assessment for which they have previously been awarded a TAG. The highest grade achieved for the unit will be used when aggregating the qualification.

Appendix A**Level 3 Applied General Weightings in 2022**

In this section we have provided the raw mark totals and weightings for each unit in every qualification where there has been an adaptation. In most cases, the raw mark totals and weightings for each unit in every qualification are the same as in a normal year.

There are, however, some qualifications where, due to the nature of the adaptations (assessments have been altered to have fewer questions), this has led to a reduction in total marks for individual units/qualifications and/or a change in the weightings of the units within the qualification. Where the raw mark for a unit changes, the total UMS for that unit remains unchanged.

The table below provides information for any Level 3 Applied General qualifications where there are any changes to a normal year, these are highlighted in red.

Title	Code	Total Mark	UMS Total	Weighting (%)
Medical Science Certificate	4463QC		480	100
Human health and disease	4463U1	90	240	50
Physiological measurement techniques	4463U2	72	120	25

Entry Level Certificate Qualification Weightings in 2022

There are some qualifications where, due to the nature of the adaptations:

- assessments have been altered to have fewer questions
- assessments have been removed altogether

and this has led to a reduction in total marks for individual assessments/qualifications and/or a change in the weightings of the assessments within the qualification. This does not include qualifications which are subject only to Advance Information without adaptations. In this case there will be no change in the total marks or the weightings.

Below are the Raw Mark Totals, the Assessment Aggregation Factor and Assessment Weightings for each component in each Entry Level qualification where there is an adaptation which has affected the total marks or weighting for 2022 only.

Where a whole assessment has been removed from a qualification, the remaining assessments will retain their existing aggregating factors. This means the remaining assessments will change weighting, but their value comparatively will remain the same as before.

For qualifications where the total mark is lower than usual, the aggregation factor for the affected assessment has been adjusted so that the assessment carries the same weight as in previous exam series.

Carry forward of NEA marks to a future series is still possible even where the raw marks are different in 2022 to a normal series.

The tables below provide information for all qualifications and where there are changes to a normal year, these are highlighted in red.
