

# Specification Comparison

## AS/A level Psychology

The key differences between component 1 and 2 of the legacy WJEC AS/A level Psychology specification and component 1 and 2 of the Ofqual reformed WJEC Eduqas AS and A level Psychology specifications.

Unit / Component 1		
WJEC AS	Eduqas AS	Eduqas A level
<ul style="list-style-type: none"> <li>• Apply the assumptions to explain the formation of a relationship</li> <li>• Psychodynamic Therapy – Dream Analysis OR Group Analysis <b>Psychotherapy</b></li> <li>• Know, understand and make judgements on a classic piece of evidence (including methodology, procedures, findings, conclusions and <b>ethical issues and social implications</b>)</li> </ul>	<ul style="list-style-type: none"> <li>• Know and understand why a relationship is formed</li> <li>• Psychodynamic Therapy – Dream Analysis OR <b>Psychodrama</b></li> <li>• Know, understand and make judgements on a classic piece of evidence (including methodology, procedures, findings, conclusions)</li> <li>• Contemporary debate (including the ethical, social and economical implications and <b>consideration of social &amp; cultural diversity</b>)</li> </ul>	<ul style="list-style-type: none"> <li>• Apply the assumptions to explain a variety of behaviours</li> <li>• Psychodynamic Therapy – Dream Analysis OR <b>Psychodrama</b></li> <li>• Know, understand and make judgements on a classic piece of evidence (including methodology, procedures, findings, conclusions and <b>ethical issues and social implications</b>)</li> <li>• Contemporary debate (including the ethical, social and economical implications)</li> </ul>

Unit / Component 2		
WJEC AS	Eduqas AS	Eduqas A level

- Contemporary debate (including the ethical, social and economical implications and consideration of social & cultural diversity)
- Principles of research – to give an appropriate context for teaching, two pieces of work of social and developmental psychologists should be studied.

- Principles of research – to give an appropriate context for teaching, two pieces of work of social and developmental psychologists should be studied.

- Principles of research – in order to contextualise some aspects of research methods learners are required to consider the methodologies used by both social and developmental psychology.
- Personal Investigations
