This booklet contains all the necessary information which WJEC registered centres* will need in order to submit entries for WJEC qualifications and covers all examinations types and all examination series during the 2019/2020 cycle.

A comprehensive list of entry codes is included in this booklet and should be used in conjunction with subject specific information included in the subject specifications and GCE, GCSE and Skills and Pathways Directories.

In addition to the entry regulations contained in this booklet, centres are also referred to the General Conditions for WJEC Centres, and the JCQ publication "General Regulations for Approved Centres" published annually in September <https://www.jcq.org.uk/exams-office/general-regulations>

The JCQ General Regulations cover:

- a) the relationship between centres and awarding bodies;
- b) the responsibilities of awarding bodies in providing administrative, subject-specific assessment and quality assurance support for centres;
- c) the responsibilities of centres during preparations for examinations/assessments and post-examination/assessment activities;
- d) obligations arising from current data protection, equality and freedom of information legislation. However, the general regulations are not intended to be relied upon to ensure compliance with the legislation.

Additional information regarding data protection is available in our privacy notice, which is published on our [website](#).

Information relating to entry fees can be found on the [WJEC](#) or [Eduqas](#) websites.

NB - *Registered centres: Entries can only be accepted from institutions which have formally registered as an examination centre with WJEC. If your centre wishes to submit entries and is not yet registered as a centre, please contact the Centre Support department at WJEC (centres@wjec.co.uk) for an application form. The completed form must be returned to WJEC no less than **five months** prior to the relevant entry deadline

Entries for the examination series included in this booklet may be submitted in either of the following formats:

Please note only one entries file must be submitted for each examination session regardless of the method used. All subsequent files must be amendment files and created using the same method as the entry file.

METHOD A - A2C MIGRATION APPLICATION (FORMERLY EDI)

Centres are particularly encouraged to use this method of entry. The JCQ A2C Migration Application (MA) allows centres to transport and receive EDI files and is a free application, provided by AVCO on behalf of the JCQ awarding bodies. It requires centres to download the relevant exam series basedata from the WJEC website and import into the centre MIS. Most centre administration packages can easily connect to the A2C Migration Application.

Centres using this method of entry should already have downloaded the A2C Migration Application and ensure they are using the latest version of their MIS before downloading basedata. Further information about basedata is provided on page 6. If you have not yet downloaded the Migration Application you should visit AVCO's website: <http://a2c.avcosystems.com/>

The formats for generating files are defined in the booklet "Formats for the Exchange of Examination Related Data (Version 14, revised May 2016)." This document is available to download from the Joint Council website at www.jcq.org.uk.

If you experience a technical problem when trying to download the MA please try your local IT support in the first instance. Most problems are often resolved by support teams who know their networks and firewalls. Your software provider or local authority may also provide advice and support. Centres requiring more information about the submission of electronic entries (EDI Files) or the use of the A2C Migration Application may call WJEC helpdesk on 029 2026 5169.

For all files sent via the A2C Migration Application, the unique 13 character candidate identifier (UCI) is compulsory.

METHOD B - ONLINE ENTRIES VIA WJEC SECURE WEBSITE

This method involves the inputting of candidate entry details for each candidate directly on to the secure website. It is therefore only suitable for centres that do not have an MIS, or who are submitting only small numbers of entries.

Centres requiring more information about using the Online Entries can email securewebsite@wjec.co.uk or call the Secure Website helpline on 029 2026 5169 however a detailed user guide for the Online Entries system is available to download from the WJEC Secure Website.

All candidate and subject details for the centre should be entered onto the system and, following the submission and processing of completed entries, the Secure Website will be updated within 48 hours with all relevant information. After submission of the online entry, further amendments may be made to candidate or subject details using the same system.

To enter a candidate through the medium of Welsh, click on the Welsh button next to the relevant subject (where available) or select the appropriate Welsh option.

BASEDATA

Centres submitting entries via Method A (A2C Migration Application) will first need to download the basedata for the relevant series from the [WJEC](#) or [Eduqas](#) websites.

Basedata contains all the necessary information for the various subjects that WJEC offers, providing details of how each subject breaks down into its constituent parts, e.g. options, components, papers, maximum marks, exam dates, fees, etc.

It is essential that for each examination level and series, centres use the latest version of basedata available. Basedata for all unitised examinations will contain information on both units and cash-in codes. **Centres must download the relevant basedata according to their geographical location.**

QUALIFICATION AVAILABILITY

WJEC GCE and GCSE qualifications are accredited by Qualifications Wales, and are not available to centres in England.

Eduqas GCE and GCSE qualifications are accredited by Ofqual, and are not available to maintained centres in Wales. This is with the exception of certain subjects that have been designated by Qualifications Wales for teaching by maintained centres in Wales, and meet regulatory requirements in Wales and England. These subjects are indicated on the relevant pages and more information is available on the 'Entries' section of our [WJEC](#) and [Eduqas](#) websites.

Centres in Northern Ireland should check availability with their regulator.

Any other restrictions for individual qualifications or subjects are listed on the relevant subject page.

WELSH BACCALAUREATE QUALIFICATION

It is a requirement of the Welsh Baccalaureate Qualification that centres must register candidates embarking on the course with WJEC.

Each registration must include candidate personal details (name, date of birth, sex) Unique Candidate Identifier (UCI), Unique Learner Number (ULN), and the code for the relevant Welsh Baccalaureate level.

Centres must submit registration details either by using the A2C Migration Application or via the WJEC's secure website. **Registration details must be submitted for every candidate embarking on the WBQ. For all electronic files submitted that may be used towards the aggregation of the Welsh Baccalaureate, centres are expected to use the Unique Learner Number (ULN).**

The final date for receipt of WBQ registrations is 31 October 2020.

AMENDMENTS TO ENTRIES

Any necessary corrections must be submitted using the method used for the initial entry:

1. Submission of Amendments using the A2C Migration Application

Centres should submit amendments via the A2C Migration Application using the JCQ standard format for amendments. It is vital however that submitted EDI files contain details of candidates to be amended and additional candidates only. **EDI files which contain a resubmission of the entire centre's entry should not be submitted.**

2. Submission of Amendments Online via WJEC Secure Website

Centres that submit their initial entries through the WJEC secure website must also submit amendments in this way. **Centres which use the A2C Migration Application for the main entries, must continue to use the A2C Migration Application for all entry/amendment transactions.**

ENTRY FEEDBACK

Once entry and amendment files have been submitted to WJEC for processing, the information will be visible on the Secure Website within 48 hours, providing that processing for that exam series has started. It is vital that centres check their entry data to avoid any late changes which would incur late amendment fees, and to ensure the dispatch of correct examination materials.

All up to date entry information can be viewed under the Entries Tab:

View/Print subject totals

View/Print candidate entries

View/Print candidate entries by subject

Candidate Statements of Entry for each candidate are available to download from the secure website under **View/Print Statement of Entry** on the Entries tab.

For entries and amendments that have been submitted using the Online facility on the secure website, the 'Print By Candidate' button on the Online Entries page can be used to print a list of all submitted and unsubmitted candidate and subject entries entered onto the system.

N.B It will therefore include all entries and amendments which have been created on the Online facility however these may not have been submitted by the centre or processed and accepted by WJEC.

The notes in this section apply to both entry methods.

CANDIDATE NUMBERING

Centres must assign a candidate number to each candidate. This is a unique four-figure number within the range 0001 to 9999. **(The number 0000 must not be allocated.)**

Centres should use the same four-figure candidate number when entering a candidate for any examinations offered by any of the other Awarding Bodies or Groups. Once submitted an entry cannot automatically be transferred from one candidate number to another, the candidate must be withdrawn from the incorrect number and re-entered under the new number. This change will therefore have cost implications if made after the amendment deadline.

CANDIDATE PERSONAL DETAILS

The correct candidate details, such as name, sex and date of birth, must be used across all examination levels, series, and all awarding bodies for the same candidate. Problems frequently occur where centres use variations of a candidate's name (e.g. an additional middle name) or an alternative spelling.

Please ensure that the full legal name is used for every examination series as this is the name that will appear on the candidate's certificates. The name, date of birth, and the UCI will be used to track candidates in unitised examinations.

Guidance on the specific format when entering candidate details using the A2C Migration Tool can be found in the "**Formats for the Exchange of Examination Related Data, Version 14**". Should the need to abbreviate a candidate's name to meet the maximum allowance of 40 characters create difficulties for any of your candidates, special arrangements can be made to record their full names on certificates by e-mailing entries@wjec.co.uk

An entry without a sex ('M' or 'F') or a valid date of birth cannot be accepted.

CANDIDATE STATUS

When compiling candidate entries, it is necessary to distinguish between internal candidates (i.e. those on the full or part time roll of the institution) and external/private candidates (i.e. those who are not students at the institution, but for whom the institution is providing examination accommodation and/or assessing and authenticating non-examination/coursework/controlled assessments).

If submitting entries using the A2C Migration Tool, private candidates must be identified in the file by inserting 'P' in position 3, Candidate Status. Please refer to "**Formats for the Exchange of Examination Related Data, Version 14**," for further guidance.

If submitting entries via the WJEC secure website, select Yes or No from the drop-down box for External/Private Candidate.

Detailed information relating to the procedures for private candidates can be found on our [WJEC](#) and [Eduqas](#) websites.

UNIQUE CANDIDATE IDENTIFIER (UCI)

All candidates entered for examinations require a **Unique Candidate Identifier (UCI)** number. The unique 13 character candidate identifier must be included, in full, on all entry and amendments file. Entries received without the UCI will not be accepted.

Please see information on the [JCO website](#) regarding UCI numbers. If your centre is entering candidates who have previously sat units / subjects at other centres, the original UCI should be obtained from the original centre.

A UCI is made up as follows:

6	8	1	9	9	0	1	9	2	0	5	8	L
Centre number where the candidate enters his/her first unit					Board Identifier '0'	Academic year in which the first unit entry is submitted, e.g. 19 for 2019		Four digit candidate examination number				'check' digit allocated using previous 12 digits.

Centres who are unable to generate the full 13 digit identifier are advised that an online check digit generator is available on the WJEC website: <http://www.wjec.co.uk/exam-officers/entries/unique-candidate-identifiers.html>

UNIQUE LEARNER NUMBER (ULN)

Unique Learner numbers are 10 digit codes allocated and held by the Learner Records Service (LRS). More information about ULNs can be found on the Learning Records Service (LRS) website: <https://www.gov.uk/education/learning-records-service-lrs>

A ULN is mandatory for candidates entering for the Welsh Baccaulaureate Qualification.

QUALIFICATION STRUCTURES: UNITISED OR LINEAR

WJEC qualifications follow either a unitised or linear structure. The structure of the qualification will affect the type and number of entry codes that must be submitted in order to ensure that each candidate is correctly entered. The entry for each subject/unit is recorded by means of a six-digit entry code.

UNITISED SUBJECTS

Some WJEC qualifications are "unitised" in nature – i.e. candidates sit a number of separate units, sometimes across different examination series, in order to complete the award. For these subjects, two separate types of entry are required:

Unit Entry: A separate entry must be made for each individual unit attempted by candidates. This requirement applies not only to the formal "written examination" units, but also those related to non-examination/coursework and controlled assessments (*centres frequently overlook the non-examination assessments when making entries and this will lead to rejections at entry stage*).

Cash-in Entry: When candidates wish to obtain an overall subject award for any unitised subject, a separate "cash-in" entry is also required. The relevant cash-in code should be entered alongside the individual unit entries. If a candidate has completed all the required units for a subject award but does not submit a cash-in entry, they may either:

- Enter for the subject award after the publication of results. An additional fee is payable in these circumstances.

or

- Enter for the subject award at a subsequent series, provided the subject is still available and any terminal requirements are met.

Combination of Units

Centres are urged to check carefully that every candidate is entered for the correct combination of units. For example, a candidate cashing in Advanced Level Geography (code 1110QS) must have an entry for all five units – 2110U1, 2110U2, 1110U3, 1110U4, 1110U5.

GCSE Terminal Requirements

Centres are reminded that for GCSE Wales unitised subjects, candidates must be entered for at least 40% of the total assessment in the terminal session (i.e. the exam session in which the award is cashed in), with the exception of GCSE Welsh Second Language. For this subject, 75% of the assessment must be taken in the terminal session, including all assessments in the form of an examination (Units 3 and 4).

LINEAR SUBJECTS

All new Eduqas AS, A Level and GCSE qualifications (and some WJEC new Wales qualifications) are linear in structure. Centres should enter candidates for a single entry code, which will automatically enter the candidate for all relevant components of the qualification. For linear subjects, 100% of the assessment is taken at the end of the course.

Following certification, candidates are able to reuse an NEA mark by 'carrying forward' the mark to a future series, within the life of the specification. Please note that if the entry is withdrawn the candidate has not certified and therefore a carry forward is not possible.

WELSH MEDIUM & DUAL LANGUAGE (ENGLISH/WELSH) ASSESSMENT

SUBJECTS TAKEN THROUGH THE MEDIUM OF WELSH

For all subjects at all levels taken through the medium of Welsh, the relevant full six-digit code should be inserted. These are listed under the 'Welsh medium' column heading.

Where a Welsh version of a question paper is required for a designated Eduqas specification, the relevant form available on our website should be completed and submitted by the appropriate deadline.

WELSH SECOND LANGUAGE, WELSH (FIRST LANGUAGE) AND WELSH LITERATURE

A candidate may not take at the same sitting:

- (b) A GCSE in Welsh Second Language with a GCSE in Welsh (First Language) and/or Welsh Literature.
- (c) Welsh Second Language Advanced or Advanced Subsidiary with Welsh (First Language) Advanced or Advanced Subsidiary.

INTERNAL ASSESSMENT

Candidates may present portfolio/internally assessed evidence entirely in Welsh, entirely in English, or in a combination of both English and Welsh. Awarding bodies are not required to specify the proportion of evidence to be presented in either language where candidates present evidence for internal assessment in two languages (Welsh and English).

EXTERNAL ASSESSMENT

Where candidates have been entered for a test or examination through the medium of Welsh, they may also have access to the English version of the question paper.

Where candidates have been entered for a test or examination through the medium of English, they may also have access to the Welsh version of the question paper. In such circumstances, centres will be obliged to request Welsh versions from WJEC well before the date of the examination.

Candidates should normally be entered for the externally assessed parts of a qualification in either Welsh or English. However, where needed to reflect the language in which the candidates were taught, candidates may sit some units/components of a qualification in English and others in Welsh.

BASEDATA

Centres submitting entries via Method A (A2C Migration Application) will first need to download the basedata for the relevant series from the main WJEC website - <https://www.wjec.co.uk/exam-officers/basedata/>

Examination Type	Series	Series Code	Board Code
GCE	October 2020	AA	41
GCSE	November 2020 English Language, Mathematics, Mathematics Numeracy and Welsh Language	BG	40
	October 2020 All other subjects	AG	40
APPLIED CERTIFICATES AND DIPLOMAS	October 2020	AB	41
EXTENDED PROJECT	October 2020	AP	41

Entry restrictions – November 2020 series

Eduqas GCSE English Language and GCSE Mathematics

The normal eligibility rules apply to these subjects in the November series, i.e. they are available to learners who have reached the age of 16 on or before 31 August 2020.

Learners who had been entered or where there is a compelling case that the learner would have entered for the June 2020 series can be entered to sit an exam in the November series.

Eduqas A level, AS level, and other Eduqas GCSEs

Learners who had been entered or where there is a compelling case that the learner would have entered for the June 2020 series can be entered to sit an exam in the November series.

WJEC GCSE

There are no restrictions on entry for these subjects in the November series.

DATES AND DEADLINES
