These are the Close Study Products (CSPs). The CSPs will be reviewed annually.

Where a television programme is set as one of the CSPs, AQA will specify the episode that students should study in depth.

ASSESSMENT

We are dedicated to producing examination and non-examined assessment materials that are clear, focused and accessible for learners of all ages.

For example, take a look at one of the questions from our Sample Assessment Materials. There you will see how we construct our questions with clarity, logic and explicit and direct connections to our detailed specification.

NON-EXAMINED ASSESSMENT

Component 3, Creating Media Products, offers learners the opportunity to create one of a wide choice of media products. Working within the parameters set by the regulatory body, we produce a range of briefs annually that allow for personal creativity and provide an opportunity to apply what has been learned throughout the course to an individual production.

An example, taken from our Sample Assessment Materials, is:

A cross-media production to market and promote a new film in a genre (or sub-genre/ hybrid) of your choice.

Create a DVD front and back cover, a ‘teaser’ poster and a main theatrical release poster for a new film and associated audio/ audio-visual or online material to promote the same film. Your cross-media production should be produced for an independent UK film company (such as Warp or DNA) targeting an audience of 16-34 year-old fans of your chosen film genre.
