**This task pack contains a scenario, a set of instructions and some source material.**

- Make sure you read through the scenario, instructions and source material carefully before you start.
- You will be supervised throughout your time working on this task, although during that time you can use most of the equipment that would normally be available to you in a real-life situation (this may include accessing the internet).
- All work submitted must be **entirely** your own. You are not allowed to be given any help with the skills that are being assessed through this controlled task.
- Make sure you hand in all of your work at the end of **each** session. You are not allowed to take any task materials away with you, or have access to these between sessions.
- Make sure you **sign the declaration** at the back of this pack at the end of your final session working on this task.

## Task Instructions: Staycation

### What you need to find out

#### Scenario

You work for a company that advertises holiday cottages for rent.

The owner of a new one bedroom cottage in the Brecon Beacons wants to rent it out over the summer.

The aims of this task are to:

- recommend a suitable weekly rent for the new cottage
- work out the total income from rent from May to September
- recommend where an access ramp for wheelchair users should be fitted.

Use the sources provided.

### What you need to do

#### Part 1

Read through the task and source materials.

Make a detailed plan to show how you will do this task.

You must describe:

- the information you need to find
- what calculations you need to do
- how to present your findings.

(Total for Part 1: 4 marks)

In **Part 2 and Part 3**, you must:

- show all the calculations you do. If you use a calculator, make a note of what you put into the calculator. If you use a spreadsheet, make a note of the numbers and the formulas you use.

Remember to check your calculations.

In either **Part 2 or Part 3**, you must:

- show at least one calculation without a calculator.

## Part 2

You need to recommend a suitable weekly rent for the new cottage in the high season and the low season.

You must use Source 1 to:

- work out the average (mean) weekly rent for other one bedroom cottages in the high season (July and August)
- round your answer to the nearest £10
- recommend a weekly rent for the new cottage in the high season and give a reason.

The weekly rent for the low season (May, June and September) will be 15% less than the high season rent.

You must:

- work out 15% of the weekly rent in the high season
- take off the 15% to work out the weekly rent in the low season
- work out the total income if the new cottage is rented every week between May and September (Source 2)
- present your findings in a suitable way (table, chart, diagram or graph).

Remember to check your calculations.

(Total for Part 2: 15 marks)

## Part 3

Wheelchair users need an access ramp to the front door of the new cottage.

You need to recommend where the ramp should be fitted.

You must use Source 3 and Source 4 to:

- work out the length of the ramp
- recommend where the ramp should be fitted and give a reason
- present your findings in a different way to the one you used in Part 2 (table, chart, diagram or graph).

Remember to check your calculations.

(Total for Part 3: 7 marks)
